

GBC Canadian Bond Fund

Investment Objective & Strategies

The GBC Canadian Bond Fund provides investors with a high level of income and some capital growth, while preserving capital by investing primarily in bonds, debentures and other debt instruments of Canadian governments and corporations, having a credit quality of "A" or better. Although the fund's objective is to invest primarily in Canadian securities, up to 49% of the fund's investments could be made in foreign markets. The fund's approach is to position the fund prudently based on average term to maturity and product selection.
