

Pembroke Dividend Growth Fund

Investment Objective & Strategies

To provide yield-oriented investors with long-term capital growth combined with current dividend income. The Fund's strategy involves investing primarily in shares of small and mid-cap Canadian, publicly-listed issuers that pay a regular dividend. From time to time, cash reserves of the Fund will be invested in high grade short-term interest bearing securities.

The portfolio manager aims to add value through prudent security selection driven by company-specific analysis. Particular emphasis is placed on identifying strong management teams running businesses that pay dividends. In general, the Fund aims to invest in companies whose internally generated cash flows are sufficient to cover both the dividend and also the growth of the underlying business. The Fund is designed to provide investors with dividend income as well as long-term capital appreciation.

Growth of \$500,000

invested on January 3, 2012

DISCLAIMER

The Fund is offered only on a private placement basis and only investors who are "accredited investors" within the meaning of the applicable securities rules may purchase the fund. Commissions, management fees and expenses all may be associated with pooled fund investments. Please read the term sheet and subscription agreement carefully before investing. The indicated rates of return are the historical annual compounded total returns including changes in unit value, reinvestment of all distributions and do not take into account the management fees or income taxes payable by any security holder that would have reduced returns. Pooled funds are not guaranteed, their values change frequently and past performance may not be repeated. The Fund is only available to Canadian residents.

The Global Industry Classification Standard ("GICS") was developed by and is the exclusive property and a service mark of MSCI Inc. and Standard & Poor's Financial Services LLC and is licensed for use by Pembroke.
