

Pembroke Concentrated Fund Class A

Investment Objective & Strategies

The Pembroke Concentrated Growth Fund seeks to provide shareholders with long-term growth through capital appreciation by investing primarily in small- to mid-sized U.S. and Canadian companies judged to have above-average growth potential or to be undervalued. The investment analysis for this Fund follows a bottom-up approach, which emphasizes careful company-specific analysis. The strategy involves identifying stocks with either sustainable growth characteristics or unrecognized intrinsic value from a universe primarily, but not exclusively, of small- to mid-sized US and Canadian stocks. The stocks of larger companies may also be held if they are growing rapidly. The portfolio manager invests in companies it believes have a strong management team, good growth prospects and above-average business quality. The portfolio manager aims to add value through prudent share selection and a concentrated approach to portfolio construction, with approximately 12-18 companies expected in the portfolio.
