HOW RISKY IS IT?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility."

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

RISK RATING

Pembroke Private Wealth Management Ltd. has rated the volatility of this Fund as **low**.

Because this is a new fund, the risk rating is only an estimate by Pembroke Private Wealth Management Ltd. Generally, the rating is based on how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money

For more information about the risk rating and specific risks that can affect the Fund's returns, see the section "What Are the Risks of Investing In the Fund" of the Fund's simplified prospectus.

NO GUARANTEES

Like most mutual funds, this Fund doesn't have any guarantees. You may not get back the amount of money you invest.

HOW HAS THE FUND PERFORMED?

This section tells how the units of the Fund have performed over the past 10 years. Returns are after expenses that have been deducted. These expenses reduce the Fund's returns.

YEAR-BY-YEAR RETURNS*

This chart shows how the units of the Fund have performed in each of the past 10 years. The Fund dropped in value once over the past 10 years. The range of returns and change from year to year can help you assess how risky the Fund has been in the past. It does not tell you how the Fund will perform in the future.

* From January 1, 2009 until the date the Fund started, units of the Fund were distributed pursuant to an exemption from the prospectus requirement.

BEST AND WORST 3-MONTH RETURNS*

This table shows the best and worst returns for units of the Fund in a 3-month period over the past 10 years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best Return	11.6%	June 30, 2020	Your investment would rise to \$1,116
Worst Return	-4.2%	June 30, 2022	Your investment would drop to \$958

* From January 1, 2009 until the date the Fund started, units of the Fund were distributed pursuant to an exemption from the prospectus requirement.

AVERAGE RETURN*

A person who invested \$1,000 in the Fund 10 years ago now has \$1,839. This works out to an annual compound return of the units of the Fund of 6.28%.

* From January 1, 2009 until the date the Fund started, units of the Fund were distributed pursuant to an exemption from the prospectus requirement.

WHO IS THE FUND FOR?

The Fund is suited for investors who:

- want an investment in a broad range of fixed income securities;
- are looking for a source of steady income from their investments; and
- are planning to invest for the short to medium term.

While the Fund is opportunistic and the Portfolio Manager may adjust allocations to investment grade and sub-investment grade credits, the Fund Manager believes the Fund's increased allocation to sub-investment grade credits in 2020 may result in higher correlations with equities and lower diversification value when combined with a portfolio of equities.

Before you invest in any Fund, you should consider how it would work with your other investments and your tolerance for risk.

A WORD ABOUT TAX

In general, you will have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the Fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

HOW MUCH DOES IT COST?

The following tables show the fees and expenses you could pay to buy, own and sell units of the Fund. The fees and expenses – including any commissions – can vary among classes of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. SALES CHARGES

There are no sales charges on this Fund, at the exception of sales commissions which may be charged by registered dealers or brokers by their own back-office of up to 3% of the purchase price of Pembroke Mutual Fund securities at the time of investment should you buy through a registered dealer.

2. FUND EXPENSES

You don't pay these expenses directly. They affect you because they reduce the Fund's returns. As of December 31, 2023, the Fund's expenses were of 0.10% of its value. This equals \$1.00 for every \$1,000 invested.
