ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE
DECEMBER 31, 2024

INCEPTION DATE
January 1, 2018

THE PORTFOLIO MANAGEMENT TEAM
PEMBROKE MANAGEMENT LTD.

This annual Management Report of Fund Performance contains financial highlights, but does not contain either interim or annual financial statements of the investment fund. You can get a copy of the interim or annual financial statements at your request, and at no cost, by calling 1-800-668-7383, by writing to us at 150 King Street West, Suite 1210, Toronto, Ontario M5H 1J9 or by visiting our website at www.pml.ca or SEDAR at www.sedar.com. Unitholders may also contact us using one of these methods (except on the SEDAR website) to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Investment Objective and Strategies

Pembroke Global Balanced Fund (the “Fund”) seeks to provide investors with long-term capital growth and income while minimizing risk through the diversification of assets, geographies, and market capitalization in investing primarily in units of public equity funds and units of fixed income funds including units of equity exchange traded funds. To achieve the Fund’s investment objective involves investing in internally and externally managed public equity funds and fixed income funds including exchange traded funds. The investments of the Fund may include global and domestic equity funds, large cap and small cap equity funds, actively and passively managed equity funds and individual securities listed on a recognized exchange. The Fund may also include government or corporate bonds as well as short-term money market instruments.

Under normal market conditions, the portfolio is constructed to achieve an asset mix of 70% units of equity funds and 30% units of fixed income funds of which, 80% should be actively managed funds and 20% passively managed funds.

Risk

The overall risk of the Fund is as described in the Simplified Prospectus. The Fund is suitable for investors who have a low-to-medium tolerance for risk and are seeking a medium to long-term investment in a broad range of equity and fixed income products and can handle the ups and downs of the stock market. Because this is a recently created fund, the risk rating is only an estimate by Pembroke Private Wealth Management Ltd. (“PPW”).

Results of Operations

For the year ended December 31, 2024, the Fund posted a return of 18.06%. In comparison, the Fund’s benchmark index posted a return of 18.88%. The Fund’s benchmark is made up of three components including a 45% weight in global equities represented by the MSCI All Country World Index, a 25% weight in Canadian stocks represented by the S&P TSX Composite Total Return Index, and a 30% weight in Canadian bonds represented by the FTSE Canada Universe Bond Index. For the year ended December 31, 2023, the Fund posted a return of 13.04% compared to the Fund’s benchmark which posted a 13.61% return.

Over the 12-month period ending December 31, the strategy delivered impressive absolute returns, marking two consecutive years of double-digit growth. However, performance slightly trailed the benchmark, which achieved marginally higher gains over the same period. All asset classes and underlying funds contributed positively to absolute returns. On a relative basis, the Canadian equities, fixed income, and gold allocations outperformed their respective benchmark components, while U.S. and international equities underperformed.

The strategy’s bond holdings outperformed the benchmark during the year. At the end of December 2024, the strategy’s bond allocation represented approximately 23.2% of the portfolio. The cash and gold bullion ETF allocations were approximately 2.8% and 4.3% of the holdings, respectively.

The strategy remains diversified by asset classes, regions, sectors, and styles. Its equity and bond managers continue to actively search for new opportunities.

At December 31, 2024, the total net asset value of the Fund was \$183.6 million compared with \$157.2 million as at December 31, 2023. The cash position was 2.70% of net asset value. The number of units outstanding in the Fund as at December 31, 2024 was 12.4 million compared with 12.2 million as at December 31, 2023.

Unrealized appreciation on investments at December 31, 2024 was \$31.6 million as compared to \$11.9 million at December 31, 2023 resulting in an increase in unrealized appreciation on investments of \$19.7 million. The Fund had net realized gains on investments sold during the year of \$3.9 million.

Fees and Expenses

During the year, the Fund incurred a total of \$0.4 million in operating expenses. PPW absorbed \$0.2 million of the Fund’s expenses. PPW may waive operating expenses at any time without notice, at its sole discretion. The management expense ratio (“MER”) for unitholders was 0.24%, after absorbed expenses (0.39% before absorbed expenses). The MER for this Fund is calculated using the total expenses incurred by the Fund and the average proportion of the MER of the underlying investment funds. The MER of the Fund as a standalone is 0.06%. There are no management fees charged to the Fund as the management fees are charged directly to the unitholders outside the Fund. Refer to the Management Fees section for further details on this.

The Fund was previously a pooled fund and the MER did not account for various fund expenses that will now be incurred as a mutual fund. For the period the Fund was a pooled fund, the expenses would have been higher if the Fund was a prospectus mutual fund.

Results of Operations (Cont'd)

Unitholder Activity

Throughout the year, \$26.9 million flowed into the Fund by way of subscriptions and \$24.3 million flowed out of the Fund as a result of redemptions.

Related Party Transactions

PPW is the Fund's Manager. The Fund Manager provides the day-to-day management of the business and operations of the Fund. The fees paid to the Fund Manager are shown in the Management Fees section of this report. Pembroke Management Ltd. ("Pembroke") is the portfolio manager of the Fund. Pembroke is the parent company of the Fund Manager, PPW. Pembroke's fees are paid by the Fund Manager, for services including investment, management, administration, advisory and accounting. The related party transactions take place in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

Recent Developments

Outlook

Looking forward, the managers of the Pembroke Global Balanced Fund believe several factors will be important drivers of investment performance, including the path of interest rates as central banks around the world balance growth and inflation, the effect of potential tariffs on global trade, growth, and inflation, as well as the effect of artificial intelligence technology on productivity and capital spending. Escalating trade tensions between the United States and Canada, marked by the imposition of new tariffs, have introduced additional uncertainty into the economic landscape, potentially impacting supply chains, corporate profit margins, and investor sentiment as we enter 2025.

While Pembroke watches these factors closely, they do not try to forecast the outcomes or time the changes in these factors. Rather, the managers maintain a diversified portfolio across asset classes with long-term exposure to a balanced portfolio of equity, fixed income, and selected real assets such as gold. Despite this diversification, the strategy is inherently tilted toward small cap growth relative to its benchmark.

PEMBROKE GLOBAL BALANCED FUND

Past Performance

The indicated rates of return are the historical annual compounded total return changes in unit values and reinvestment of all distributions and do not take into account sales, redemptions, distributions or other optional charges that would have reduced returns. Mutual funds are not guaranteed; their values may increase or decrease and past performance may not be repeated.

The Fund's performance numbers have been prepared under the assumption that all distributions are reinvested in additional units of the Fund. If you hold this Fund outside of a registered plan, income and capital gains distributions that are paid to you increase your income for tax purposes, whether paid to you in cash or reinvested in additional units. The amount of the reinvested taxable distributions is added to the adjusted cost base of the units that you own. This would decrease your capital gains or increase your capital losses when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

Year-by-year returns

The bar chart indicates the Fund's performance for each of the years shown, and illustrates how the Fund's performance has changed from year to year. The bar chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the end of the financial year. The percentage figures indicated have been rounded to the nearest whole number due to space constraints.

(1) The performance reported refers to performance of the Fund beginning April 9, 2019, which was the first valuation of the Fund following its conversion to a mutual fund. There is no comparative performance reported.

Annual compound returns

The following table shows the Fund's annual compound total return for the periods shown ending on December 31, 2024. The annual compound total return is also compared to the "Balanced Benchmark" on the same compound basis.

All index returns are calculated in Canadian dollars on a total return basis.

December 31, 2024	1 yr ⁽²⁾	3 yr	5 yr	10 yr	Since inception ⁽²⁾
Pembroke Global Balanced Fund	18.06%	6.23%	10.12%	N/A	10.02%
Balanced Benchmark ⁽¹⁾	18.88%	6.49%	8.64%	N/A	8.68%

(1) The Balanced Benchmark is composed of:
 - 25% S&P/TSX Composite Total Return Index is a capitalization-weighted index that represents some of the largest float-adjusted stocks trading on the Toronto Stock Exchange. Company size and liquidity are the chief attributes determining index membership.
 - 30% FTSE TMX Canada Universe Bond Index is a market capitalization-weighted index designed to be a broad measure of the Canadian investment-grade fixed income market. This Index was previously called DEX Universe Bond Index.
 - 45% MSCI All Country World Index is a global equity index and designed to represent performance of the full opportunity set of large- and mid-cap stocks across 23 developed and 26 emerging markets

(2) The performance reported refers to performance of the Fund beginning April 9, 2019, which was the first valuation of the Fund following its conversion to a mutual fund.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the financial years indicated. This information is derived from the Fund's audited annual financial statements. The information presented is based on prescribed regulations and, as a result, is not expected to sum due to the increase (decrease) in net assets attributable to holders of redeemable units being based on the average units outstanding during the year and all other numbers being based on the actual units outstanding at the relevant point in time.

THE FUND'S NET ASSETS PER UNIT

Net assets attributable to holders of redeemable units, end of year ⁽⁴⁾	14.80	12.86	11.65	13.22	12.35
(1) This information is derived from the Fund's audited annual financial statements.					
(2) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) in net assets attributable to holder's of redeemable units is based on the weighted average number of units outstanding over the financial year.					
(3) Distributions were paid in cash and/or reinvested in additional units of the Fund.					
(4) This table is not intended to be a reconciliation of beginning to ending net assets per unit.					
RATIOS AND SUPPLEMENTAL DATA (based on Trading NAV)

Portfolio turnover rate (%) ⁽⁴⁾	24.25	13.00	25.23	19.59	40.82
Net asset value per unit (\$)	14.80	12.86	11.65	13.22	12.35
(1) This information is provided as at December 31 of the year shown.					
(2) The management expense ratio ("MER") is calculated in accordance with National Instrument 81-106, based on expenses for the stated period (including Harmonized Sales Tax, Goods and Service Tax, income tax and interest) but excluding foreign withholding taxes, commissions and other portfolio transaction costs, and is expressed as an annualized percentage of the daily average net asset value during the period. PPW may, at its discretion and without notice to unitholders, waive or absorb certain operating expenses. The Fund has had expenses waived or absorbed for some of the years presented. The waiver or absorption of operating expenses is expected to continue for an indefinite period of time and can be terminated by PPW at its discretion and without prior notice.					
The Fund was previously a pooled fund and the MER did not account for various fund expenses that will now be incurred as a mutual fund. The MER for this Fund is calculated using the total expenses incurred by the Fund and the average proportion of the MER of the underlying investment funds. The MER of the Fund as a standalone is 0.06 %.					
(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the year. The TER for this Fund is calculated using the total commissions and other portfolio transaction costs incurred by the Fund and the average proportion of the TER of the underlying investment funds.					
(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor trades its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Financial Highlights (Cont'd)**Management Fees**

Management fees are charged directly to unitholders. Subject to the maximum fees set forth below, unitholders are charged management fees based on the assets under management of their PPW relationship. Such management fees are payable directly to PPW by the redemption (without charge) of a sufficient number of units of the Fund held.

Pembroke Dividend Growth Fund	1.50%	1.50%	1.00%

¹ Larger investors or those meeting specific criteria may qualify for lower fees

Management fees paid directly by unitholders of the Fund to PPW through a redemption of units was \$1.8 million for the year ended December 31, 2024.

Under the Pembroke Family Advantage Program, the value of family holdings of all family members designated by the investor will be considered to determine the management fee applicable to all family members. In order to benefit from the Pembroke Family Advantage Program, family members must be designated by the investor using the form prepared by PPW and must be approved by PPW prior to any management fee reduction being applicable. Management fees are determined based on the amount of assets under management with PPW and Pembroke.

All management fees were used by the Manager to pay costs for managing the investment portfolio, providing investment analysis and recommendations, making investment decisions, and providing other services. For the year ended December 31, 2024, none of the management fees received by the Manager were used to fund commission payments and other dealer compensation (collectively "distribution-related costs") paid to registered dealers and brokers for units of the Fund bought and held by investors.
