You can get a copy of the interim or annual financial statements at your request, and at no cost, by calling 1-800-668-7383, by writing to us at 150 King Street West, Suite 1210, Toronto, Ontario M5H 1J9 or by visiting our website at www.pml.ca or SEDAR at www.sedar.com. Unitholders may also contact us using one of these methods (except on the SEDAR website) to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

PEMBROKE CORPORATE BOND FUND

Investment Objective and Strategies

Pembroke Corporate Bond Fund (the “Fund”) seeks to provide investors with above-average income returns through a diversified portfolio composed primarily of fixed income securities of corporate entities anywhere in the world. To achieve the Fund’s investment objective the Fund will be invested primarily in fixed income securities of corporate entities, including those of foreign issuers.

Risk

The overall risk of the Fund is as described in the Simplified Prospectus. There were no material changes to the Fund over the financial period that affected the overall level of risk associated with an investment in the Fund. The Fund is suitable for investors who have a low tolerance for risk and who are seeking a short to medium-term investment primarily in a broad range of fixed income securities and looking for a steady source of income from their investments. Canso Investment Counsel Ltd (“Canso”) is the investment manager of the Fund.

Results of Operations

For the year ended December 31, 2025, the Fund posted a return of 4.26%. In comparison, the Fund’s benchmark index, the FTSE Canada All Corporate Bond Index posted a return of 4.48%. For the year ended December 31, 2024, the Fund posted a return of 8.30% compared to the Fund’s benchmark which posted an 6.97% return.

In 2025 the Fund underperformed the benchmark. The Fund’s allocation to Federal Government bonds and underweight position in corporates detracted from relative performance as credit spreads tightened over the period. Contributing to Fund performance include select issues of Limited Recourse Capital Notes (LRCNs) and high yield issues from Hertz, Air Canada, and Avis Budget which experienced spread tightening. A shorter than benchmark duration and underweight in long term bonds was also a modest contributor to relative performance as the yield curve steepened in the period.

At December 31, 2025, the total net asset value of the Fund was \$199.5 million as compared to \$169.6 million as at December 31, 2024. The cash position was 0.58% of net asset value. The number of units outstanding in the Fund as at December 31, 2025, was 15.2 million compared with 12.7 million as at December 31, 2024.

Unrealized depreciation on investments at December 31, 2025, was \$2 million as compared to unrealized appreciation on investments of \$3.1 million as at December 31, 2024, resulting in a decrease in unrealized appreciation on investments of \$5.1 million. The Fund had net realized gains on investments sold during the year of \$3.8 million.

Fees and Expenses

During the year, the Fund paid a total of \$0.2 million in operating expenses. The management expense ratio (“MER”) for unitholders was 0.09%. There are no management fees charged to the Fund as the management fees are charged directly to the unitholders outside the Fund. Refer to the Management Fees section for further details on this.

The Fund was previously a Pooled Fund, and the MER did not account for various fund expenses that will now be incurred as a mutual fund. For the period the Fund was a pooled fund, the expenses would have been higher if the Fund was a prospectus mutual fund.

Unitholder Activity

Throughout the year, \$49 million flowed into the Fund by way of subscriptions and \$15.1 million flowed out of the Fund as a result of redemptions.

Related Party Transactions

Pembroke Private Wealth Management (“PPW”) is the Fund’s Manager. The Fund Manager provides the day-to-day management of the business and operations of the Fund. The fees paid to the Fund Manager are shown in the “Management Fees” section of this report. The related party transactions take place in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

Recent Developments**Outlook**

The Fund continues to be conservatively positioned with 56.04% invested in AAA/AA rated securities, 47.58% of which are Government bonds which include federally guaranteed NHA MBS. Duration ended the period at 4.8 years, which remains below the benchmark duration of 5.6 years. The Fund continues to maintain exposure to select high yield issues which are well structured and remain attractive from a risk-adjusted perspective. With ample liquidity, the Fund is well positioned to fund future credit opportunities.

PEMBROKE CORPORATE BOND FUND

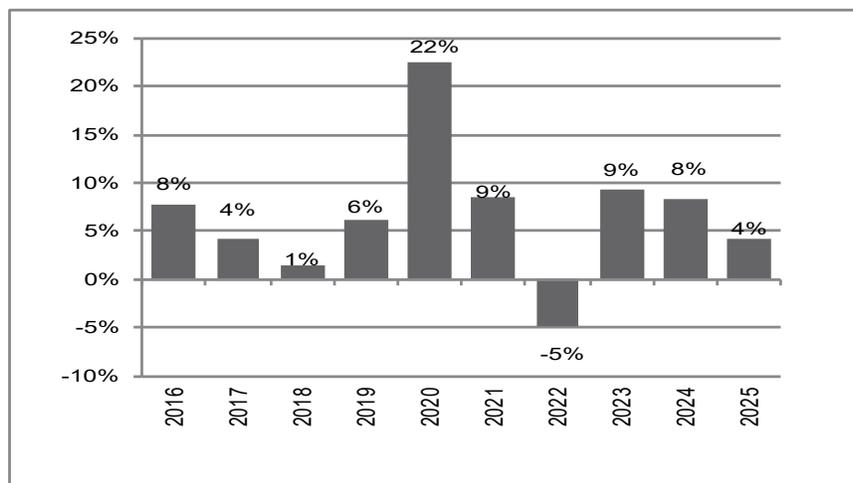

Past Performance

The indicated rates of return are the historical annual compounded total return changes in unit values and reinvestment of all distributions and do not take into account sales, redemptions, distributions or other optional charges that would have reduced returns. Mutual funds are not guaranteed, their values may increase or decrease, and past performance may not be repeated.

The Fund's performance numbers have been prepared under the assumption that all distributions are reinvested in additional units of the Fund. If you hold this Fund outside of a registered plan, income and capital gains distributions that are paid to you increase your income for tax purposes, whether paid to you in cash or reinvested in additional units. The amount of the reinvested taxable distributions is added to the adjusted cost base of the units that you own. This would decrease your capital gains or increase your capital losses when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

Year-by-year returns

The bar chart indicates the Fund's performance for each of the years shown, and illustrates how the Fund's performance has changed from year to year. The bar chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the end of the financial year. The percentage figures indicated have been rounded to the nearest whole number due to space constraints.

Annual compound returns

The following table shows the Fund's annual compound total return for the periods shown ending on December 31, 2025. The annual compound total return is also compared to the FTSE Canada All Corporate Bond Index on the same compound basis.

All index returns are calculated in Canadian dollars on a total return basis.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the financial years indicated. This information is derived from the Fund's audited annual financial statements. The information presented is based on prescribed regulations and, as a result, is not expected to sum due to the increase (decrease) in net assets attributable to holders of redeemable units being based on the average units outstanding during the year and all other numbers being based on the actual units outstanding at the relevant point in time.

Net assets attributable to holders of redeemable units, end of year⁽⁴⁾	13.14	13.40	12.99	12.68	13.92

(1) This information is derived from the Fund's audited annual financial statements.

(2) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) in net assets attributable to holder's of redeemable units is based on the weighted average number of units outstanding over the financial year.

(3) Distributions were paid in cash and/or reinvested in additional units of the Fund.

(4) This table is not intended to be a reconciliation of beginning to ending net assets per unit.

Net asset value per unit (\$)	13.14	13.40	12.99	12.68	13.92

(1) This information is provided as at December 31 of the year shown.

(2) The management expense ratio ("MER") is calculated in accordance with National Instrument 81-106, based on expenses for the stated year (including Harmonized Sales Tax, Goods and Service Tax, income tax and interest) but excluding foreign withholding taxes, commissions and other portfolio transaction costs, and is expressed as an annualized percentage of the daily average net asset value during the year. PPW may, at its discretion and without notice to unitholders, waive or absorb certain operating expenses. The Fund expenses were waived or absorbed for some of the years presented. The waiver or absorption of operating expenses is expected to continue for an indefinite period of time and can be terminated by PPW at its discretion and without prior notice. The Fund was previously a pooled fund and the MER did not account for various fund expenses that will now be incurred as a mutual fund.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the year.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor trades its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management fees paid directly by unitholders of the Fund to PPW through a redemption of units was \$1 million for the year ended December 31, 2025.

Under the Pembroke Family Advantage Program, the value of family holdings of all family members designated by the investor will be considered to determine the management fee applicable to all family members. In order to benefit from the Pembroke Family Advantage Program, family members must be designated by the investor using the form prepared by PPW and must be approved by PPW prior to any management fee reduction being applicable. Management fees are determined based on the amount of assets under management with PPW and Pembroke.

All management fees were used by the Manager to pay costs for managing the investment portfolio, providing investment analysis and recommendations, making investment decisions, and providing other services. For the year ended December 31, 2025, none of the management fees received by the Manager were used to fund commission payments and other dealer compensation (collectively "distribution-related costs") paid to registered dealers and brokers for units of the Fund bought and held by investors.
