## HOW RISKY IS IT?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility."

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

## RISK RATING

Pembroke Private Wealth Management Ltd. has rated the volatility of this Fund as **low to medium**.

This rating is based on how much the Fund's returns have changed year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see the section "What Are The Risks of Investing In the Fund" of the Fund's simplified prospectus.

## NO GUARANTEES

Like most mutual funds, this Fund doesn't have any guarantees. You may not get back the amount of money you invest.

## HOW HAS THE FUND PERFORMED?

This section tells how the units of the Fund have performed over the past 10 years. Returns are after expenses that have been deducted. These expenses reduce the Fund's returns.

### YEAR-BY-YEAR RETURNS

This chart shows how the units of the Fund have performed in each of the past 10 years. The Fund dropped in 2 of the past 10 years. The range of returns and change from year to year can help you assess how risky the Fund has been in the past. It does not tell you how the Fund will perform in the future.

### BEST AND WORST 3-MONTH RETURNS

This table shows the best and worst returns for the units of the Fund in a 3-month period over the past 10 years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best Return	17.9%	June 30, 2020	Your investment would rise to \$1,179
Worst Return	-16.3%	March 31, 2020	Your investment would drop to \$837

### AVERAGE RETURN

A person who invested \$1,000 in the Fund 10 years ago now has \$2,398. This works out to an annual compound return of units of the Fund of 9.14%.

## WHO IS THE FUND FOR?

The Fund is suited for investors who:

- are seeking a well diversified portfolio with a broad range of equity and fixed income products;
- can handle the ups and downs of the stock market; and
- are planning to hold their investments for the medium term.

Do not buy this Fund if you need a steady source of income from your investment.

## A WORD ABOUT TAX

In general, you will have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the Fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

## HOW MUCH DOES IT COST?

The following tables show the fees and expenses you could pay to buy, own and sell units of the Fund. The fees and expenses – including any commissions – can vary among classes of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

### 1. SALES CHARGES

There are no sales charges on this Fund, at the exception of sales commissions which may be charged by registered dealers or brokers by their own back-office of up to 3% of the purchase price of Pembroke Mutual Fund securities at the time of investment should you buy through a registered dealer.

### 2. FUND EXPENSES

You don't pay these expenses directly. They affect you because they reduce the Fund's returns. As of December 31, 2021, the Fund's expenses were of 0.43% of its value. This equals \$4.30 for every \$1,000 invested.
